

Worksites Partnering for Health

Why focus on designing a healthy workplace? Research shows that most U.S. adults spend the majority of their waking hours at work. Employee health is a bottom-line issue: health care costs are rising, but businesses still seek to retain talent by providing competitive benefits, including health insurance coverage.

WorkWell KS is a statewide worksite wellness initiative that provides training and resources for businesses and organizations to support worksite health. The following businesses are partnering with LiveWell Johnson County and WorkWell KS to create healthier work environments for their employees.

City of Shawnee	Dimensional Innovations	Johnson County Parks & Recreation Department
Panera	Redemption Plus	Shawnee Mission School District
